PROFILE

Data / Business Analyst with experience in reporting, KPI monitoring, analysis and automation. Skilled in Power BI, SQL, Excel and Python. Seeking a permanent role from MONTH YEAR.

PROFESSIONAL EXPERIENCE

Job Title

Company Name

City, Country

Month YEAR – Present

- Start with an action verb. Explain what you analysed, built, improved or automated and why it mattered.
- Add a verified number when you genuinely have one: volume, frequency, time saved, users, dashboards or KPI.
- Keep the bullet concise and focused on one clear contribution.

Tools: Power BI, SQL, Excel, Python

Previous Job Title

Previous Company

City, Country

Month YEAR – Month YEAR

- Describe a relevant responsibility using keywords that match your target roles.
- Show the business context or measurable result without inventing impact.

Tools: Tool 1, Tool 2, Tool 3
